(54) Title (EN): A NOTOGINSENG SAPONIN INTRAVENOUS INJECTION AND THE METHOD FOR PREPARING THIS INJECTION

(54) Title (FR): INJECTION INTRAVEINEUSE DE SAPONINE DE NOTOGINSENG ET SON PROCEDE DE PRODUCTION

(57) Abstract:

(EN): The present invention discloses a notoginseng saponin large capacity intravenous injection and the method for preparing this injection. The injection of the present invention consists of notoginseng saponin, isoosmotic agent, PH regulator; the solvent of the injection is injection distilled water. A refined injection is prepared through dissolving isoosmotic agent by injection distilled water; adding acticarbon, filtering; adding notoginseng saponin in the filtertes, agitating to dissolution; adding PH regulator, filtering to clarification, asepticizing, packing, then notoginseng saponin large capacity intravenous injection is prepared.

(FR): La présente invention a trait à une injection intraveineuse de grande capacité de saponine de notoginseng et le procédé pour la préparation d'une telle injection. L'injection de la présente invention est constituée de saponine de notoginseng, d'un agent iso-osmotique, d'un régulateur de pH ; le solvant de l'injection consiste en de l'eau distillée. Une injection raffinée est préparée par la dissolution d'un agent iso-osmotique par injection dans de l'eau distillée, l'ajout de charbon actif et filtration; l'ajout de saponine de notoginseng dans de filtrat, l'agitation en vue de dissolution ; l'ajout de régulateur de pH, filtration pour l'obtention de clarification, l'aseptisation, le conditionnement, permettant ainsi l'obtention d'une injection intraveineuse de grande capacité de saponine de notoginseng.
