(54) Title (EN): BAG FOR MEDICAL USE HAVING THREE COMPARTMENTS

(54) Title (FR): POCHE À USAGE MÉDICAL COMPORTANT TROIS COMPARTIMENTS

(57) Abstract:

(EN): The present invention relates to a bag (10) for medical use having three compartments (11, 12, 13), and having a compartment (11) containing a solvent, a compartment (12) containing a solute, and a compartment (13) containing a solvent, the compartment (12) containing a solute being separated from the two other compartments (11, 13) by pincers (14, 15), the opening of which allows liquid to flow by gravity, and, during opening of one of said pincers (14, 15), and under the effect of a pressure, the liquid contained in one compartment is propelled towards another compartment. The present invention likewise relates to a method for using a bag 10 for medical use having three compartments 11, 12, 13.

(FR): La présente invention se rapporte à une poche (10) à usage médical comportant trois compartiments (11, 12, 13), et comportant un compartiment (11) contenant un solvant, un compartiment (12) contenant un soluté et un compartiment (13) contenant un solvant, le compartiment (12) contenant un soluté étant séparé des deux autres compartiments (11, 13) par des pinces (14, 15), dont l'ouverture permet un écoulement de liquide par gravité, et en ce que, lors de l'ouverture de l'une desdites pinces (14, 15) et sous l'effet d'une pression, le liquide contenu dans un compartiment est propulsé vers un autre compartiment. La présente invention se rapporte également à un procédé d'utilisation d'une poche 10 à usage médical comportant trois compartiments 11, 12, 13.
