(54) Title (EN): SUPPORT FOR HANGER FOR MOUNTING CABLES

(54) Title (FR): SUPPORT POUR UN DISPOSITIF DE SUSPENSION POUR MONTER DES CÂBLES

(57) Abstract:

(EN): An assembly includes: a mounting structure including a mounting hole; a cable hanger having two arms with locking projections, the locking projections inserted into the mounting hole of the mounting structure, and the arms defining a space for engaging a cable; and a support for maintaining the mounting of the cable hanger in the mounting structure, the support including a main panel and first and second fingers extending in a direction away from the main panel. The second finger is inserted between the arms of the cable hanger, and the first finger is positioned laterally of one of the arms.

(FR): La présente invention concerne un ensemble qui comprend : une structure de montage comprenant un trou de montage ; un dispositif de suspension de câble ayant deux bras comportant des saillies de verrouillage, les saillies de verrouillage étant insérées dans le trou de montage de la structure de montage, et les bras définissant un espace pour venir en prise avec un câble ; et un support destiné à conserver le montage du dispositif de suspension de câble dans la structure de montage, le support comprenant un panneau principal et des premier et second doigts s'étendant dans une direction opposée au panneau principal. Le second doigt est inséré entre les bras du dispositif de suspension de câble et le premier doigt est positionné latéralement par rapport à l'un des bras.
