(54) Title (EN): DATA ORGANIZING STICKERS

(54) Title (FR): AUTOCOLLANTS D'ORGANISATION DE DONNÉES

(57) Abstract:

(EN): A server system suitable for organizing files using stickers is provided. The server system determines a plurality of stickers applicable to data presented on a user interface of a client device, and causes presentation of the determined plurality of stickers on the user interface of the client device. The server system receives a selection of a sticker from the plurality of stickers. The server system then applies the selected sticker to the presented data, whereby the application of the selected sticker causes the presented data to be classified based on the selected sticker.

(FR): L'invention concerne un système de serveur permettant d'organiser des fichiers à l'aide d'autocollants. Le système de serveur détermine une pluralité d'autocollants applicables à des données présentées sur une interface utilisateur d'un dispositif client et amène la pluralité déterminée d'autocollants à s'afficher sur l'interface utilisateur du dispositif client. Le système serveur reçoit une sélection d'un autocollant parmi la pluralité d'autocollants. Le système de serveur applique ensuite l'autocollant sélectionné aux données présentées, l'application de l'autocollant sélectionné amenant les données présentées à être classées d'après l'autocollant sélectionné.

Declarations:

Declaration made as applicant's entitlement, as at the international filing date, to apply for and be granted a patent (Rules 4.17(ii) and 51bis.1(a)(ii)), in a case where the declaration under Rule 4.17(iv) is not appropriate

Declaration made as applicant's entitlement, as at the international filing date, to claim the priority of the earlier application, where the applicant is not the applicant who filed the earlier application or where the applicant's name has changed since the filing of the earlier application (Rules 4.17(iii) and 51bis.1(a)(iii))
