(54) Title (EN): CABLE POSITION STOPPER

(54) Title (FR): BOUCHON DE POSITION DE CÂBLE

(57) Abstract:
(EN): An apparatus for use with a cable, wherein the apparatus comprises a conduit and a stopper, wherein the stopper is formed in one or more parts from a plastic; the stopper comprises an internal hole which is configured to accommodate a cable and the stopper has an outer surface of which at least a part conforms to the geometry of one end of the conduit; the geometry of the one end of the conduit is flared and accommodates the shape of the stopper; and the conduit is configured to accommodate the cable.

(FR): La présente invention concerne un appareil destiné à être utilisé avec un câble, l'appareil comprenant un conduit et un bouchon, le bouchon étant formé en une ou plusieurs partie(s) à partir d'un plastique ; le bouchon comprend un trou interne qui est configuré pour recevoir un câble et le bouchon a une surface externe dont au moins une partie est conforme à la géométrie d'une extrémité du conduit ; la géométrie de ladite extrémité du conduit est évasée et s'adapte à la forme du bouchon ; et le conduit est configuré pour recevoir le câble.
