(54) Title (EN): METHOD FOR CONTROLLING BRIGHTNESS IN MOBILE TERMINAL DISPLAY, MOBILE TERMINAL AND STORAGE DEVICE

(54) Title (FR): PROCÉDÉ DE COMMANDE DE LUMINOSITÉ DANS UN AFFICHAGE DE TERMINAL MOBILE, TERMINAL MOBILE ET DISPOSITIF DE STOCKAGE

(54) Title (ZH): 一种控制移动终端显示亮度的方法、移动终端及存储装置

(57) Abstract:

(EN): Disclosed by the present application are a method for controlling brightness in mobile terminal display, a mobile terminal and a storage device, the method comprising: controlling an optical sensor and an acceleration sensor within a mobile terminal to respectively monitor in real time a change value for environmental brightness and a change value for angle of rotation; determining whether the change value for environmental brightness and the change value for angle of rotation as monitored by the mobile terminal are less than a preset brightness and a preset angle, respectively; and when yes, controlling the brightness in mobile terminal display to not change.

(FR): La présente invention concerne un procédé de commande de luminosité dans un affichage de terminal mobile, un terminal mobile et un dispositif de stockage, le procédé consistant à : commander un capteur optique et un capteur d'accélération à l'intérieur d'un terminal mobile pour surveiller respectivement en temps réel une valeur de changement de la luminosité ambiante et une

valeur de changement d'angle de rotation; déterminer si la valeur de changement de la luminosité ambiante et la valeur de changement d'angle de rotation telles que surveillées par le terminal mobile sont respectivement inférieures à une luminosité prédéfinie et à un angle prédéfini; et si c'est le cas, commander la luminosité dans l'affichage de terminal mobile pour qu'elle ne change pas.

(ZH): 本申请公开了控制移动终端显示亮度的方法、移动终端及存储装置,所述方法包括:控制移动终端中的光传感器和加速度传感器分别实时监测环境亮度变化值和旋转角度变化值;判断移动终端监测到的环境亮度变化值和旋转角度变化值是否分别小于预设亮度和预设角度;当是时,控制移动终端显示亮度不变。
