(54) Title (EN): VEHICLE DRIVER ASSIST SYSTEM

(54) Title (FR): SYSTÈME D'AIDE À LA CONDUITE D'UN VÉHICULE

(57) Abstract:

(EN): A vehicle driver assist system includes a housing having a main body portion and a viewing window in the main body portion. A camera is provided in the main body portion and has a field of view through the viewing window. A glare reduction portion is adjacent the camera. The glare reduction portion has a textured surface for attenuating light reflection off of the glare reduction portion and into the camera.

(FR): L'invention concerne un système d'aide à la conduite d'un véhicule qui comprend un boîtier ayant une partie de corps principale et une fenêtre de visualisation dans la partie de corps principale. Une caméra est disposée dans la partie de corps principale et possède un champ de vision à travers la fenêtre de visualisation. Une partie de réduction d'éblouissement est adjacente à la caméra. La partie de réduction d'éblouissement possède une surface texturée ce qui permet d'atténuer la réflexion de lumière provenant de la partie de réduction d'éblouissement et dans la caméra.

Declarations:

Declaration made as to the identity of the inventor (PCT Rules 4.17(i) and 51bis.1(a)(i))

Declaration made as applicant's entitlement, as at the international filing date, to claim the priority of the earlier application, where the applicant is not the applicant who filed the earlier application or where the applicant's name has changed since the filing of the earlier application (Rules 4.17(iii) and 51bis.1(a)(iii))
