

(12) International Application Status Report

Received at International Bureau: 15 October 2018 (15.10.2018)

Information valid as of: 13 March 2019 (13.03.2019)

Report generated on: 20 September 2019 (20.09.2019)

(10) Publication number:

WO2019/067749

(43) Publication date:

04 April 2019 (04.04.2019)

(26) Publication language:

English (EN)

(21) Application Number:

PCT/US2018/053169

(22) Filing Date:

27 September 2018 (27.09.2018)

(25) Filing language:

English (EN)

(31) Priority number(s):

15/717,937 (US)

(31) Priority date(s):

27 September 2017 (27.09.2017)

(31) Priority status:

Priority document received (in compliance with PCT Rule 17.1)

(51) International Patent Classification:

G06F 9/00 (2018.01); **G06F 17/30** (2006.01); **G06F 15/173** (2006.01)

(54) Title (EN): DYNAMIC APPLICATION MOBILIZATION

(54) Title (FR): MOBILISATION DYNAMIQUE D'APPLICATIONS

(57) Abstract:

(EN): Systems and methods are disclosed for dynamic application mobilization. In one implementation, an application is modeled as a processing function. The processing function is placed at a first processing node within a processing network. One or more optimization operations are computed with respect to the processing function. The processing function is mobilized from the first processing node to a second processing node within the processing network in accordance with the one or more optimization operations.

(FR): La présente invention concerne des systèmes et des procédés de mobilisation dynamique d'applications. Dans un mode de réalisation, une application est modélisée sous forme d'une fonction de traitement. La fonction de traitement est placée dans un premier nœud de traitement dans un réseau de traitement. Une ou plusieurs opérations d'optimisation sont calculées par rapport à la fonction de traitement. La fonction de traitement est mobilisée du premier nœud de traitement vers un second nœud de traitement dans le réseau de traitement selon la ou les opérations d'optimisation.
