(54) Title (EN): MASSAGE MASK

(54) Title (FR): MASQUE DE MASSAGE

(54) Title (KO): 마사지 마스크

(57) Abstract:

(EN): The present invention relates to a massage mask having a novel structure for maximizing an effect of a face pack and massage. A massage mask according to the present invention comprises: a mask sheet (10) arranged to cover the face of a user; a fixing mask (20) formed of a silicon material and fixed to the face of the user so as to cover the mask sheet (10); an electrode member (30) provided at the inner surface of the fixing mask (20) and adhering to the outer surface of the mask sheet (10); and a power supply unit (40) connected to the electrode member (30) and driven by a control unit (50) to supply power to the electrode member (30), wherein, when power is supplied to the mask sheet (10), the face of the user is covered by the mask sheet (10), while the mask sheet is moistened with cosmetics including derivatives for generating negative ions, and the fixing mask (20) is fixed to the outside of the mask sheet (10) such that the electrode member (30) adheres to the mask sheet (10), and then, when power is supplied to the electrode member (30) by using the power supply unit (40), the negative ions are generated from the cosmetics included in the mask sheet (10) to massage the user's skin.

(FR): La présente invention concerne un masque de massage ayant une nouvelle structure pour maximiser un effet d'un masque facial et d'un massage. Un masque de massage selon la présente invention comprend : une feuille de masque (10) agencée pour recouvrir le visage d'un utilisateur; un masque de fixation (20) formé d'un matériau de silicium et fixé au visage de l'utilisateur de façon à recouvrir la feuille de masque (10); un élément électrode (30) disposé au niveau de la surface interne du masque de fixation (20) et adhérant à la surface externe de la feuille de masque (10); et une unité d'alimentation électrique (40) connectée à l'élément électrode (30) et entraînée par une unité de commande (50) pour fournir de l'énergie à l'élément électrode (30) lorsque de l'énergie est fournie à la feuille de masque (10), le visage de l'utilisateur est recouvert par la feuille de masque (10), tandis que la feuille de masque est humidifiée avec des produits cosmétiques comprenant des dérivés pour générer des ions négatifs, et le masque de fixation (20) est fixé à l'extérieur de la feuille de masque (10) de telle sorte que l'élément électrode (30) adhère à la feuille de masque (10), puis, lorsque de l'énergie est fournie à l'élément électrode (30) en utilisant l'unité d'alimentation électrique

(40), les ions négatifs sont générés à partir des produits cosmétiques inclus dans la feuille de masque (10) pour masser la peau de l'utilisateur.

(KO): 본 발명은 얼굴 팩과 마사지효과를 극대화할 수 있도록 된 새로운 구조의 마사지 마스크에 관한 것이다. 본 발명에 따른 마사지 마스크는 사용자의 얼굴을 덮도록 배치되는 마스크시트(10)와, 상기 마스크시트(10)를 덮도록 사용자의 얼굴에 고정되는 실리콘재질의 고정마스크(20)와, 상기 고정마스크(20)의 내측면에 구비되어 상기 마스크시트(10)의 외측면에 밀착되는 전극부재(30)와, 상기 전극부재(30)에 연결되며 제어수단(50)에 의해 작동제어되어 전극부재(30)에 전원을 인가하는 전원공급수단(40)이 구비되어, 상기 마스크시트(10)에는 전원이 인가되면 음이온이 발생하는 유도체가 포함된 화장품이 적셔져, 사용자의 얼굴에 마스크시트(10)를 덮고, 그 외측에 고정마스크(20)를 고정하여 상기 전극부재(30)가 마스크시트(10)에 밀착되도록 한 후, 상기 전원공급수단(40)을 이용하여 전극부재(30)에 전원을 인가하면, 상기 마스크시트(10)에 포함된 화장품에서 음이온이 발생되어, 사용자의 피부를 마사지하게된다.
