(54) Title (EN): MANAGEMENT APPARATUS, MANAGEMENT SYSTEM, INFORMATION GENERATION METHOD, AND PROGRAM FOR MANAGING RECORD OF PROCESS

(54) Title (FR): APPAREIL DE GESTION, SYSTÈME DE GESTION, PROCÉDÉ DE PRODUCTION D'INFORMATIONS ET PROGRAMME DE GESTION D'ENREGISTREMENT DE PROCESSUS

(57) Abstract:

(EN): A management apparatus that manages records of a predetermined process carried out using test paper, the test paper having a discoloration area that changes color in accordance with an achievement degree of the predetermined process, is presented. The management apparatus includes: holding means for holding, for each predetermined process, a record in which information that indicates a date/time at which the predetermined process was carried out and a determination result of the predetermined process determined based on the color of the discoloration area of the test paper is recorded; and generating means for generating information for determining transition of quality of the predetermined process based on the information recorded in the records.

(FR): L'invention concerne un appareil de gestion qui gère des enregistrements d'un processus prédéfini, réalisé à l'aide de papier réactif, le papier réactif comportant une zone de décoloration qui change de couleur en fonction d'un degré de réussite du processus prédéfini. L'appareil de gestion comprend : un moyen de maintien, permettant de maintenir, pour chaque processus prédéfini, un enregistrement dans lequel sont enregistrées des informations indiquant une date/heure à laquelle a été effectué le processus prédéfini et un résultat de détermination du processus prédéfini, déterminé en fonction de la couleur de la zone de décoloration du papier réactif; et un moyen de production, permettant de produire des informations visant à déterminer une transition de qualité du processus prédéfini en fonction des informations enregistrées parmi les enregistrements.
