(54) Title (EN): INFORMATION TRANSMISSION METHOD AND TERMINAL

(54) Title (FR): PROCÉDÉ DE TRANSMISSION D'INFORMATIONS ET TERMINAL

(54) Title (ZH): 信息传输的方法及终端

(57) Abstract:

(EN): Provided are an information transmission method and a terminal. The method comprises: a first terminal receiving sidelink information sent by a second terminal, wherein the sidelink information comprises: at least one piece of transmission resource pattern information; and the first terminal determining, according to the sidelink information, an occupied resource for transmission between the first terminal and the second terminal.

(FR): L'invention concerne un procédé de transmission d'informations, et un terminal. Le procédé comprend les étapes suivantes : un premier terminal reçoit des informations de liaison latérale envoyées par un second terminal, les informations de liaison latérale comprenant : au moins un élément d'informations de motif de ressource de transmission ; et le premier terminal détermine, en fonction des informations de liaison latérale, une ressource occupée pour une transmission entre le premier terminal et le second terminal.

(ZH): 本公开实施例提供了一种信息传输的方法及终端,其中方法包括:第一终端接收第二终端发送的侧行链路信息;所述侧行链路信息包括:至少一个传输资源图案信息;所述第一终端根据所述侧行链路信息,确定所述第一终端与所述第二终端之间的传输占用的资源。
