(54) Title (EN): MULTICOPTER HELICOPTER AND METHOD OF MANUFACTURE THEREOF

(54) Title (FR): HÉLICOPTÈRE MULTICOPTÈRE ET SON PROCÉDÉ DE FABRICATION

(57) Abstract:

(EN): A multicopter helicopter comprising one main rotor and two or more secondary rotors operatively connected to a frame is provided, wherein each of the secondary rotors are smaller in diameter than the main rotor, and wherein each secondary rotor is pivotably connected to the frame. A method of manufacturing the multicopter helicopter of the present invention is also provided.

(FR): L'invention concerne un hélicoptère multicoptère comprenant un rotor principal et au moins deux rotors secondaires fonctionnellement reliés à un cadre, chacun des rotors secondaires étant plus petit en diamètre que le rotor principal, et chaque rotor secondaire étant relié de façon pivotante au cadre. L'invention concerne également un procédé de fabrication de l'hélicoptère multicoptère de la présente invention.
