Remark by DO/KR

The applicant submitted IPEA/409 to the elected Office (KR) to certificate the amendment by Article 34. But the international preliminary examination report has not been transmitted to us under Art 36(3)(a). And we also can't find IPEA/409 on the wipo web site(patentscope / Documents)

We need a copy of international preliminary examination report to confirm the applicant's international preliminary examination demand.

Please send us the copy of international preliminary examination report as soon as possible under Art 36(3)(a)
