Applicant
SABIC INNOVATIVE PLASTICS IP B.V.

This international search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.

This international search report consists of a total of 5 sheets.

X It is also accompanied by a copy of each prior art document cited in this report.

1. Basis of the report
   a. With regard to the language, the international search was carried out on the basis of:
      X the international application in the language in which it was filed
      □ a translation of the international application into ____________________, which is the language of a translation furnished for the purpose of international search (Rules 12.3(a) and 23.1(b))

   b. □ This international search report has been established taking into account the rectification of an obvious mistake authorized by or notified to this Authority under Rule 91 (Rule 43.6b(a)).

   c. □ With regard to any nucleotide and/or amino acid sequence disclosed in the international application, see Box No. I.

2. □ Certain claims were found unsearchable (See Box No. II)

3. X Unity of invention is lacking (see Box No III)

4. With regard to the title,
   X the text is approved as submitted by the applicant
   □ the text has been established by this Authority to read as follows:

5. With regard to the abstract,
   X the text is approved as submitted by the applicant
   □ the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box No. IV. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority

6. With regard to the drawings,
   a. the figure of the drawings to be published with the abstract is Figure No. ____________
      □ as suggested by the applicant
      □ as selected by this Authority, because the applicant failed to suggest a figure
      □ as selected by this Authority, because this figure better characterizes the invention
   b. □ none of the figures is to be published with the abstract
INTERNATIONAL SEARCH REPORT

International application No.

Box No. II  Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☐ Claims Nos.:
   because they relate to subject matter not required to be searched by this Authority, namely:

2. ☒ Claims Nos.:
   because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:

3. ☐ Claims Nos.:
   because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Box No. III  Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

see additional sheet

1. ☒ As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.

2. ☐ As all searchable claims could be searched without effort justifying an additional fees, this Authority did not invite payment of additional fees.

3. ☐ As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:

4. ☐ No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

Remark on Protest

☐ The additional search fees were accompanied by the applicant’s protest and, where applicable, the payment of a protest fee.

☐ The additional search fees were accompanied by the applicant’s protest but the applicable protest fee was not paid within the time limit specified in the invitation.

☒ No protest accompanied the payment of additional search fees.

Form PCT/ISA/210 (continuation of first sheet (2)) (April 2005)
A. CLASSIFICATION OF SUBJECT Matter
INV. D04H1/541 ADD.

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
D04H

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic database consulted during the international search (name of database and, where practical, search terms used)
EPO-Internal

This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

1. claims: 1-13 (completely); 26-34 (partially)
   A composition comprising reinforcing fibers; a plurality of polyimide fibers; and a plurality of polymeric binder fibers; wherein the polymeric binder fibers have a melting point lower than the polyimide fibers. and further comprising an aqueous solvent.
   ---

2. claims: 14-25, 35-37 (completely); 26-34 (partially)
   A dual matrix, thermoformable composite, comprising: a network comprising a plurality of reinforcing fibers; and a matrix comprising melted and cooled polyimide fibers and melted and cooled polymeric binder fibers, wherein the polymeric binder has a melt temperature lower than the polyimide, and wherein the dual matrix composite has a minimum degree of loft of greater than or equal to three.
