**B65D6/24 (2006.01) i**

Applicant  
**CHOI, Jin Hyung**

1. This opinion contains indications relating to the following items:

- Box No. I Basis of the opinion
- Box No. II Priority
- Box No. III Non-establishment of opinion with regard to novelty, inventive step and industrial applicability
- Box No. IV Lack of unity of invention
- Box No. V Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement
- Box No. VI Certain documents cited
- Box No. VII Certain defects in the international application
- Box No. VIII Certain observations on the international application

2. **FURTHER ACTION**

If a demand for international preliminary examination is made, this opinion will be considered to be a written opinion of the International Preliminary Examining Authority ("IPEA") except that this does not apply where the applicant chooses an Authority other than this one to be the IPEA and the chosen IPEA has notified the International Bureau under Rule 66.1bis(b) that written opinions of this International Searching Authority will not be so considered.

If this opinion is, as provided above, considered to be a written opinion of the IPEA, the applicant is invited to submit to the IPEA a written reply together, where appropriate, with amendments, before the expiration of 3 months from the date of mailing of Form PCT/ISA/220 or before the expiration of 22 months from the priority date, whichever expires later.

For further options, see Form PCT/ISA/220.

WRITTEN OPINION OF THE  
INTERNATIONAL SEARCHING AUTHORITY

International application No.

PCT/KR2016/000751

Box No. I Basis of this opinion

1. With regard to the **language**, this opinion has been established on the basis of:
  - the international application in the language in which it was filed
  - a translation of the international application into \_\_\_\_\_, which is the language of a translation furnished for the purposes of international search (Rules 12.3(a) and 23.1(b)).
2.  This opinion has been established taking into account the **rectification of an obvious mistake** authorized by or notified to this Authority under Rule 91 (Rule 43bis.1(a))
3.  With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application, this opinion has been established on the basis of a sequence listing:
  - a.  forming part of the international application as filed:
    - in the form of an Annex C/ST.25 text file.
    - on paper or in the form of an image file.
  - b.  furnished together with the international application under PCT Rule 13ter.1(a) for the purposes of international search only in the form of an Annex C/ST.25 text file.
  - c.  furnished subsequent to the international filing date for the purposes of international search only:
    - in the form of an Annex C/ST.25 text file (Rule 13ter.1(a)).
    - on paper or in the form of an image file (Rule 13ter.1(b) and Administrative Instructions, Section 713).
4.  In addition, in the case that more than one version or copy of a sequence listing has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that forming part of the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
5. Additional comments:

2.1. Novelty and Inventive Step

2.1.1. Independent Claim: Claim 1

The invention as set forth in claim 1 differs from the invention disclosed in document D1 in that the former pertains to a prefabricated box characterized in that: flange pieces formed to extend outwards are formed at the upper ends of side plates of the prefabricated box; coupling recessed grooves, which are opened in the downward direction, are formed at the bottom surfaces of both side end portions of the flange piece of one of the side plates; and coupling protrusions, accommodated in

Box No. V

Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial applicability;  
citations and explanations supporting such statement

and press-fitted into the coupling recessed grooves, are provided at both side end portions of the flange piece of the side plate that abuts the side plate having the coupling recessed grooves, whereas the later discloses a foldable container comprising: a bottom plate (22); two pairs of side walls (24, 28) facing each other; and T-shaped protrusions (70) and protrusion grooves (50), which are formed on the outer surface of the side walls. The difference would not be obvious to a person skilled in the art, to which the present invention belongs, having regard to the other cited documents. Therefore, the invention as set forth in claim 1 is novel and involves an inventive step under PCT Article 33(2) and (3).

## 2.2. Industrial Applicability

The invention as set forth in claim 1 is industrially applicable under PCT Article 33(4).
