Claims Nos.: 14-18

A meaningful search is not possible on the basis of claims 14-18 because these claims are directed to a method for treatment of the human or animal body by surgery (Rule 39.1(iv) PCT). Especially step d) of claim 14, reading "drilling (in the human bone) using the drilling body on the portion of the implant (already installed in the bone) to be treated". Also the dependent claims 15-18 refer to that drilling step.
