ePCT Message:
I have just been appointed as agent for this PCT application. I do not see certified copies of the priority documents in the file records for this case, in PatentScope or in ePCT. Nor do I see the form IB/304 confirming that certified copies of the priority documents were not received by the International Bureau. I can see only the RO/132 confirming that CIPO was not provided with the certified copies at the time of filing, but that is not conclusive of the issue.

Can you confirm if the certified copies of the priority documents were provided previously to the IB for this application, and why the form IB/304 does not seem to have been issued?

Many thanks.
