

## INTERNATIONAL SEARCH REPORT

International application No.

PCT/JP2018/008965

## A. CLASSIFICATION OF SUBJECT MATTER

Int.Cl. G01L1/00(2006.01) i, G01L1/25(2006.01) i

According to International Patent Classification (IPC) or to both national classification and IPC

## B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

Int.Cl. G01L1/00-1/26

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Published examined utility model applications of Japan	1922-1996
Published unexamined utility model applications of Japan	1971-2018
Registered utility model specifications of Japan	1996-2018
Published registered utility model applications of Japan	1994-2018

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

JSTPlus/JST7580/JSTChina (JDreamIII) &amp; keyword: stress measurement, stress detection, ultrasound, acoustoelasticity, X-ray, correction, calibration, and terms similar thereto

## C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X A	JP 05-142067 A (TOSHIBA CORP.) 08 June 1993, paragraphs [0025]-[0038], fig. 6-7 (Family: none)	1-2 3-4
X A	田中俊一郎, 官坂千晶, 微小 X 線法及び超音波顕微鏡法によるセラミック接合界面近傍の残留応力分布測定, 日本機械学会関西支部定時総会講演会講演論文集, March 1992, vol. 67, no. 1, pp. 7-9, 日本機械学会関西支部, (The Japan Society of Mechanical Engineers Kansai Branch), non-official translation (TANAKA, Shunichiro, MIYASAKA, Chiaki, "Measurement of residual stress distribution in vicinity of ceramic bond interface by micro x-ray method and ultrasonic microscope method", Lecture proceedings of regular general meeting conference of The Japan Society of Mechanical Engineers Kansai Branch)	1-2 3-4

 Further documents are listed in the continuation of Box C. See patent family annex.

\* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"I" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&amp;" document member of the same patent family

Date of the actual completion of the international search  
31 May 2018 (31.05.2018)Date of mailing of the international search report  
12 June 2018 (12.06.2018)Name and mailing address of the ISA/  
Japan Patent Office  
3-4-3, Kasumigaseki, Chiyoda-ku,  
Tokyo 100-8915, JapanAuthorized officer  
  
Telephone No.
