RESPONSE TO INVITATION TO CORRECT DEFECTS

IN THE INTERNATIONAL APPLICATION

Dear Madam:

This paper is provided in response to the invitation to correct defects in the international application, mailed on July 12, 2018, namely the defects specified on the Annex C1 attached thereto. The Receiving Office noted that the drawings of the international application as filed did not comply with the physical requirements set out in the PCT Rules, namely Rule 11.13 for reasonably uniform international publication. In response, the Applicant submits herewith replacement sheets embodying the corrected drawings.

Pursuant to PCT Rule 11.13 the Applicant respectfully submits that the corrected drawings FIGS. 1-3, provided herewith, comply with the physical requirements referred to in Rule 11 for the purpose of reasonably uniform international publication. The Applicant respectfully submits that the amended drawings admit of direct reproduction and are present sideways with the top of the figures at the left side of the sheets.

- 2 -

Additionally, the applicant advises that the priority document, US patent application No. filed July 4, 2017 has been made available to the WIPO Digital Access Service since July 19, 2017 and a copy of the Certificate of Availability is attached.

The filing, transmittal and search fees of \$3874.00 were paid under cover of our fax letter dated July 30, 2018.

We look forward to receiving the Notification of Receipt of Record Copy, Notification of Receipt of Search Copy and the Notification concerning submission, obtention or transmittal of priority document confirming that the priority document has been received at the International Bureau.

It is believed that no fee is required. However, if a fee is required, the Commissioner is authorized to charge the amount of the insufficiency to our VISA credit card in the name of Armand Benitah.

The Office is invited to contact the undersigned, Mark D. Penner, should any further information be required.

Respectfully submitted,

Fasken Martineau DuMoulin
