 IMPORTANT COMMUNICATION
 INFORMATION ONLY

2. COMMUNICATION:

The attention of the applicant is drawn to the fact that since the above indicated international application has a filing date on or after 1 January 2004, according to PCT Rule 4 9(a), the filing of the request constitutes the designation of all Contracting States that are bound by the PCT on the international filing date and an indication that the international application is for the grant of every kind of protection which is available by way of the designation of that State. This applies regardless of what specific designations have been made in the request form.

Only the applicants are indicated for the purposes of the designation of Australia (AU), United Kingdom (GB), Singapore (SG) and United States of America (US).

Please check that the indications concerning the applicants are correct.

If the indications are not correct, a request under PCT Rule 92bis for the recording of a change should be filed with the International Bureau or the receiving Office accordingly.

If the applicant does not wish to designate all States, the attention of the applicant is drawn to the fact that, under Rule 90bis 2, the designation of a State may be withdrawn
