

IN THE INTERNATIONAL BUREAU OF THE PCT

Applicant: Amerilab Technologies, Inc.  
First Named Inventor: Carrie Kraling et al.  
PCT Application Serial No.: PCT/US2019/025639  
Filed: April 3, 2019  
Title: EFFERVESCENT TABLETS THAT INCLUDE CRYSTALLINE SUGAR  
BINDER AND METHODS OF MAKING THE SAME

LETTER ACCOMPANYING REPLACEMENT SHEET OF THE SPECIFICATION

Dear Sirs and Madams:

Applicant respectfully requests entry of Replacement Page 18 in the above-captioned application. This letter 1) sets forth the differences in page 18 of the application as filed and Replacement Page 18 that is submitted herewith, 2) provides information as to the basis for the amendment, and 3) provides reasons for the amendment. Applicant submits herewith a clean version of Replacement Page 18, as well as a marked-up version of Replacement Page 18.

Differences

Information in Table 4, which bridges pages 18 and 19 of the above-captioned application, has been changed. In particular, in the column headed "C19" and in the row entitled, "CANTAB Dextrose," the value 28.02, has been changed to 0.00, and in the row entitled "ADM" the value 0.00 has been changed to 28.02. In the column headed "E11" and in the row entitled "CANTAB Dextrose," the value 27.77, has been changed to 0.00, and in the row entitled "ADM" the value 0.00 has been changed to 27.77. In the marked-up version of Replacement Page 18, the text that has been added is indicated with underlining and the text that has been deleted is indicated with double square brackets.

CERTIFICATE OF TRANSMISSION

I hereby certify under 37 CFR §1.8(a) that this correspondence is being electronically transmitted to the International Bureau of the PCT through the ePCT portal on August 6, 2020.

Reasons for the Amendments

These amendments were necessary because Applicant's representative, the undersigned, inadvertently entered the binder data that she received from the Applicant into the wrong row for the formulas reflected in columns C19 and E11.

Basis for the Amendments

A careful review of the data in columns C19 and E11 demonstrates that these are obvious clerical errors. Without the amendments to C19, the formula of C19 is identical to the formula for C17, yet the disintegration time is significantly less for the tablet of C19 than it is for the tablet of C17. Likewise, without the amendments to E11, the formula of C22 is identical to the formula for E11, yet the disintegration time is significantly less for the tablet of E11 than it is for the tablet of C22. The skilled artisan upon reading Applicant's Specification and studying the information in Tables 1-4 would readily recognize that this inconsistency was due to the clerical errors that are being corrected herein.

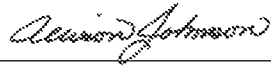

No new matter has been added.

The Examiner is invited to telephone the undersigned should a teleconference interview facilitate the handling of this application.

Please charge any additional fees or credit any overpayment to Deposit Account No. 50-1171.

Respectfully submitted,

Date: August 6, 2020
