— with international search report (Art. 21(3))
— before the expiration of the time limit for amending the claims and to be republished in the event of receipt of amendments (Rule 48.2(h))

(88) Date of publication of the international search report:
23 July 2020 (23.07.2020)

(54) Title: ARTICLE CARRIER AND BLANK THEREFOR

FIG. 4

(57) Abstract: Aspects of the disclosure relate to an article carrier for packaging a plurality of articles. The article carrier (90) comprises a plurality of primary panels (16, 18, 20, 22, 24, 26) which form a tubular structure having an interior chamber. The plurality of primary panels includes: a first panel (14, 28); and a second panel (18, 24) opposing the first panel (14, 28). The carrier (90) further comprises a partition structure (P1, P2) dividing the interior chamber into two or more article-receiving cells.

INTERNATIONAL SEARCH REPORT

International application No
PCT/US2019/062932

A. CLASSIFICATION OF SUBJECT MATTER
INV. B65D71/58
ADD.
According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED
Minimum documentation searched (classification system followed by classification symbols)
B65D

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)
EPO-Internal, WPI Data

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	US 2016/152389 A1 (HOLLEY JR JOHN MURDICK [US]) 2 June 2016 (2016-06-02) paragraphs [0018] - [0050]; figures -----	1-11,13
A	US 2015/321816 A1 (HOLLEY JR JOHN MURDICK [US]) 12 November 2015 (2015-11-12) figures -----	1
A	US 2 575 654 A (CASLER ROGER H) 20 November 1951 (1951-11-20) figures -----	1

Further documents are listed in the continuation of Box C.

See patent family annex.

* Special categories of cited documents :

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family

INTERNATIONAL SEARCH REPORT

International application No.
PCT/US2019/062932

Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. Claims Nos.:
because they relate to subject matter not required to be searched by this Authority, namely:

2. Claims Nos.:
because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:

3. Claims Nos.:
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

see additional sheet

1. As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.

2. As all searchable claims could be searched without effort justifying an additional fees, this Authority did not invite payment of additional fees.

3. As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:

4. No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

1-11, 13

Remark on Protest

- The additional search fees were accompanied by the applicant's protest and, where applicable, the payment of a protest fee.
- The additional search fees were accompanied by the applicant's protest but the applicable protest fee was not paid within the time limit specified in the invitation.
- No protest accompanied the payment of additional search fees.

FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

1. claims: 1-11, 13

Independent claim 1 relates to an article carrier comprising a plurality of primary panels, the panels including a first and a second panel and a partition structure for dividing the interior into two or more cells, the partition structure being formed from the first panel. Claim 13 deals with a blank for forming such a carrier.

2. claims: 12, 14

Claim 12 relates to an article carrier comprising a plurality of primary panels, the panels including a first and a second side panel, a medial partition wall interposed parallel between the first and the second side panel and a pair of end closure flaps comprising at least one press-activated locking feature for interconnecting the end closure flaps. Claim 14 deals with a blank for forming such a carrier.
