FI/F-TERMS:

KEYWORDS OR OTHER ELEMENTS FEATURING THE INVENTION:

Problem: providing a mouthpiece with an improved connection with an aerosol-generating article.

Solution: The invention relates to a mouthpiece for attachment to a hollow tubular filter portion of an aerosol-generating article. The mouthpiece comprises an inner tubular section having a minimum outer diameter which is smaller than an inner diameter of the hollow tubular filter portion of the aerosol-generating article. The mouthpiece comprises an outer tubular section having a maximum inner diameter which is larger than an outer diameter of the aerosol-generating article.
